

Stratton Mountain
Urgent Care
Carlos Otis Clinic

Dear Friends:

The Carlos Otis Stratton Mountain Clinic is proud to continue to serve the urgent and primary healthcare needs of the resort and local communities as we have since 1971. As we begin our 54th season, we are again ready to respond when you or your family need us. Our sincere gratitude for your past and continued support.

“Having been at many mountain resorts, I can say the Carlos Otis Clinic provides an unparalleled level of care and scope of service for our community. We are grateful to the dedicated medical team, and for the Clinic’s state of the art equipment that is typically available only in an advanced hospital setting.”

Matthew Jones, President and COO Stratton Resort

“Way back in 1971 when I photographed the groundbreaking of the Carlos Otis Clinic, I was wondering about the need of this facility on the Mountain. Since then, so many patients have received excellent immediate care and much needed comfort, including myself! Cheers to the founders who had this foresight!”

Hubert Schriebl, Stratton Photographer since 1964

“The emergency operations of Carlos Otis Clinic in combination with our first rate Ski Patrol, sets the gold standard for mountain resorts in the Northeast. Our son experienced their care in the most extreme, life-threatening circumstances. They literally saved his life and he is thriving now thanks to their actions and critical care knowledge.”

Sari Chang Guthrie, Stratton Ski Instructor and NYC Resident

“Since its inception, the Carlos Otis Clinic has provided truly outstanding health care for our guests, families, and neighborhoods. The Stratton Mountain Community is truly fortunate to have such a valuable partner.”

Bill Nupp, Former President and COO Stratton Resort

“The Carlos Otis Clinic has been an integral part of the Stratton Mountain Community for many decades. Stratton Mountain School students and staff feel secure knowing we have a high-quality, local healthcare option available – whether in urgent times or for more routine check-ins. The Carlos Otis Clinic truly enhances our mountain community providing invaluable support and peace of mind.”

Carson Thurber, Head of Stratton Mountain School and Stratton Resident

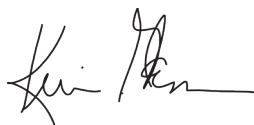

“The Stratton Urgent Care at Carlos Otis Clinic is an extraordinary asset to the Stratton Resort Community. The facility, staff, and level of care that is provided to residents, employees, and guests is exceptional. Given the rural location of the Stratton Resort, having the Clinic at the base of the mountain provides comfort and reassurance for those in need of high quality medical care.”

Sky Foulkes, Former President and COO Stratton Resort

“The treatment I received at Stratton Urgent Care at the Carlos Otis Clinic is truly the best healthcare experience I have ever had. Please keep up the good work”

A grateful patient

We rely on you for your generosity and support to sustain us and help carry on this legacy of care into the future. The testimonies above are just a small sample of the wonderful service that our Clinic can deliver. We are proud of what we have built and hope that you are too. If or when you need the amazing resources of our facility, know that we will be here for you and your family. Thank you for your serious consideration.
